

Talk Homework 14/12/17

Tomorrow, you will be required to write a set of instructions
for how to make cakes.

This week you have been making cakes at school. Discuss with an adult at home how you made them. Talk about other methods and ways of designing and making cakes. Think about the instructions related to cake making and how you could write them/set them out on the page.

Don't forget that instructions/recipes have a list of 'what you need.' Recipes also often come with warnings and reminders such as 'Ask an adult to put the cakes in the hot oven.' Your instructions can be for a made up cake of your choosing!

Some words you may want to use:

First, next, then, after, finally, carefully, warning, ingredients, equipment.

What other words can you think of?
