

## Talk Homework 31/01/18

### Story Writing With a Focus on the Setting Description

Discuss what you can see, what you might hear, smell and the feelings you would experience as you move through the mysterious world. Consider how you could open your sentences and how you could use different length sentences.

Try to avoid using more than one 'and' in a sentence and try to get 3 out of the 4 sentence types into your work!

They could be commands, statements, questions or exclamation sentences.

Some words you may want to use:

in the distance                      quietly                      flowing  
emerging                      highlighting                      glistening  
peaceful                      throughout                      whilst

What other words can you think of?
