

Life As We Know It!

Year 5 Spring 2018

As Physicists, we will be studying the Solar System and our place within in it. We will be looking at the relationship between the Earth, Moon and Sun and how space and planetary bodies affect our day to day lives. We will also be investigating the properties of different materials and how we use this knowledge in our everyday lives.

As Historians, we will consider significant thinkers of astronomy including Galileo, Copernicus and Newton. We will also be finding out about Man's recent exploration of space.

As Designers, we will be applying our knowledge of mechanisms (gears and pulleys) to construct Inter-Planetary Rovers.

As Performing Artists, we will be devising our own Opera; writing the storyline and composing our musical score; designing and making our own costumes and set and choreographing our own dances.
